MESSAGE FROM DIRECTOR DESK

All of us know very well that a school is a temple of learning where young kids are framed to be the guide, guard, and guardian of their next generation. It is a never-ending process that begins at home. So home is the first school for a child where parents act as teachers and the school is the second home for him where teachers act as parents. We the team of TRM PUBLIC School believe in firm discipline which is the key to success in life, yet we prevail. In the air of openness through the love and affection of our teachers that helps the students to develop their hidden qualities and to keep the national flag flying high above. We understand very well that students are the main role model of future generation - the thinkers, planners, and leaders of the society and it is the duty of every modern school to feed them with proper mental food that enables them to be worthy world citizens of tomorrow.
